

6 Month Internship

Data/Social Media Intern

REN21, the Renewable Energy Policy Network for the 21st Century, is seeking an intern to support its Secretariat in Paris. This intern will have two main functions:

- 1) Assist with communication and outreach activities
- 2) Update the [REN21 Renewables Interactive Map](#) with new data collected during the GSR data-collection process

Responsibilities include:

- Support REN21 in its social media activities
- Assist with the preparation of all electronic communication around the launch of REN21's flagship publication *Renewables 2017 Global Status Report*;
- Provide assistance in updating REN21's website, newsletter and assisting with internal REN21 IT tools (online questionnaires, peer review tool)
- Compile and transcribe data for the [REN21 Renewables Interactive Map](#)
- Track statistics on REN21's digital portfolio (Map, website, social media)
- Provide assistance to the REN21 Secretariat as needed

Requirements

- Educational background: energy/environment, engineering, urbanism, social science, economics, statistics, IT, or similar
- Strong IT skills and interest, graphic design, web development
- Excellent written and oral English skills; other languages are a valuable asset
- Enjoy working as part of an international team; ability to work independently

To apply, please send a CV and a covering letter outlining your suitability and interest in the position at **the latest by Sunday, 8 January 2017** to secretariat@ren21.net. Please mention "**REN21 Data/Social Media Internship**" in the e-mail header.

The position is based in Paris and will start **1st March 2017 and is remunerated**. The successful candidate will work under a 6 months paid internship agreement. Only short-listed candidates will be contacted. The successful candidate needs to have a legal right to work in France. The working language of REN21 is English.

About REN21

REN21 convenes international multi-stakeholder leaders to enable a rapid global transition to renewable energy. REN21 promotes renewable energy to meet the needs of both industrialised and developing countries that are driven by climate change, energy security, development and poverty alleviation. The overarching goal of REN21 is the promotion of policies that will increase the wise use of renewable energy worldwide. In order to achieve this objective, REN21 encourages action in three areas: Policy, Advocacy, and Exchange. For more information on our organisation, visit www.ren21.net
