## Advancing the Energy Transition: Germany and Mexico Changing their Power Pattern - The Economics, Challenges and Opportunities of Renewable Electricity

**Day:** September 11th 2017

**Time:** 17.00 – 18.30

**Room:** HUICHOL

### Description:

With the participation of the German State Secretary for Energy (BMWi) and the Mexican Undersecretary for Electricity (SENER), this event will focus on Germany's Energiewende and Mexico's Energy Reform. It will put an emphasis on the economic rationale, technical challenges and general opportunities for increasing the share of renewables in the power sector. It will provide insights into the latest power auctions in Germany and Mexico among other issues.

### Speakers:

- Rainer Baake, State Secretary for Energy, Ministry for Economic Affairs and Energy Germany (BMWi)
- César Emiliano Hernández Ochoa, Undersecretary for Electricity, Ministry of Energy Mexico (SENER)
- Loïc Le Gall, Executive Director Power and Utilities, EY Mexico
- Alejandro Preinfalk, Vice-President, Siemens Mesoamerica (Mexico)
- Isabel Studer, Executive Director Mexico and North of Central America, The Nature Conservancy (TNC)
